BUSINESS AND ECONOMY

1) Purchasing Managers Index

- India's manufacturing sector experienced a significant slowdown in October, with the Purchasing Managers' Index (PMI) falling to 55.5, marking an eight-month low compared to the previous month's 57.5.

About PMI:

- It is a survey-based measure about key business variables as compared with the previous month.
- Aim: is to provide information about current and future business conditions to company decision makers, analysts, and investors.
- It is calculated separately for the manufacturing and services sectors and then a composite index is constructed.
- PMI is a number from 0 to 100.
- above 50 means expansion, while a score below that denotes contraction.
- A reading at 50 indicates no change.

Note:

- a high PMI reading is seen as a positive sign for the economy.

IMPORTANT DAYS
